## Success Tips #42

### Black Hole BH1 Mic at Voice One

When you consider purchasing a new microphone, do you think of buying one from Latvia? Latvia, you might ask... where is that? Geography and history lesson 101: Latvia is on the eastern shore of the Baltic Sea, surrounded by Estonia, Russia, Belarus, and Lithuania. Russia completed its military withdrawal from the country in 1994. Ten years later, Latvia joined NATO and the European Union. The government denationalized private property confiscated by the Soviet rule and returned it to families or compensated the owners for it, plus privatized most state-owned industries. With its recent orientation toward Western Europe, Latvia's economy now has one of the highest growth rates.

Today, the Latvian Electrical Engineering and Electronics industry has a high volume of high-tech product exports. In fact, many of you may already own one of these exports: the Blue Snowball or Blue Snowflake USB microphone. In September 2007, Juris Zarins founded a new, innovative, high end microphone company called JZ Microphones. Voice One recently purchased the JZ Black Hole BH1 at the AES Convention in September. Besides its unique design, new shock mount and revolutionary pop filter, the sound is amazing! Its rich, clear sound rivals the Neumann U67. Check it out: [www.jzmic.com](http://www.jzmic.com). I look forward to recording you using it in our studio!

Elaine Clark, owner of Voice One and author of *There's Money Where Your Mouth Is*.

## Look Who's Talking

- **Scott Jackson, Jenny Debevec, Steven Thomas** and **Steve Cloyes** recorded VOs for Pulse Entertainment - (booked through the Voice One Talent website). **Steve Cloyes** also filmed an industrial for Varian and **Steven Thomas & Earon Mackie** recorded audio tours for Antenna Audio.
